LAKE STREET PLAYGROUND PLANS

Park Officers in Conference With Playground Association

Officials—Probable Layout of Park Discussed—Advocate Tree Planting at Early Date.

On Tuesday afternoon, President J. B. Stanton, Arthur L. Peale and T. C. Murphy of the Norwich Playground Association met with Park Commissioners H. F. Parker and John Duff, superintendent of Mohegan park, at the city's property at Lake street, which is to be devoted to a playground for the children, and the grounds were gone over and plans for their laying out discussed. Since the visit of the playground association committee to the property a year ago, the grounds have been filled in and much improved. It was proposed to make a plan of what the park would eventually be, rather than to do parts of the work independent of the rest of the grounds. It was considered probable that at the right side of the property near the entrance would be the sand boxes, swings, etc., for the small boys and girls, while on the left would be a baseball ground. The upper part of the property would be devoted to a baseball ground.

It was considered that shade trees

could be set out around the entire edge of the property, catalpa, sycamore, swamp maple and European linden being used. As it is necessary to thin out the trees in Mohegan park in places, young trees may be obtained there. It was the opinion of the party that the trees should be set out at once, owing to the long time necessary for them to develop. All that is possible will be accomplished this year. A baseball diamond will be one of the first things to be prepared. Before any other work can be accomplished it will be necessary to clean up the refuse about the property and level the grounds, which will eventually be seeded down although this may not be accomplished this year. A walk will entirely surround the property. President Stanton showed pictures and plans of playgrounds in other cities.

All the members of the committee feel confident that before long this will be a spot of recreation eagerly sought by the children and boys.

PEACE GROVE BOUGHT
BY SWEDISH COUNTESS.

Expected That Annual Peace Meetings Will Be Continued There.

Negotiations are practically complete for the sale of Peace Meeting grove, at Mystic, the property of the Universal Peace union, to Countess Van Booth of New York and Sweden, who has been active in furthering the peace movement. It is expected the annual peace meetings there will be continued with renewed activity.

For 14 years the annual convention of the Peace union have been held in the grove, and it is now hoped by those most interested in the cause that the Countess Van Booth will do what she can to reawaken interest in the meetings, which of late years has fallen off considerably, until the attendance at the sessions in Peace temple have fallen off from 3,000 and 4,000 to as many as 1,000. Last August, in fact, it was seriously considered discontinuing the meetings at Mystic entirely, as the union's financial affairs would hardly permit of their being continued, and also because the expenditures at the meetings were considerably more than the receipts.

Good String of Trout.
Miss Mary Smith and Cleve D. Bolles of Uncasville caught 14 trout Tuesday morning. One of them weighed four pounds and four ounces. Mr. Bolles did not catch any of the trout, but he found the place where they were. Miss Smith and Mr. Bolles caught several large striped bass last season.

Milady's Toilet Table
By MRS. D'MILLE

A good complexion is within reach of every woman. All it requires is proper care. Throw away powders and cosmetics, live in the open air as much as possible and use a simple solution made by dissolving an original package of mayatone in a half-pint of water. Gently massage face, neck and arms with this solution and you will be delighted with results. Its effect is instantaneous, and in a short time the skin is smooth, soft, satiny and glowing.

To keep the hair bright, fluffy and youthful looking use a dry shampoo two or three times a month. Washing the hair makes it faded and brittle. Put a capful of mayatone in a fruit jar and mix with it an original package of mayatone. Sprinkle a little on the head and brush out. It brushes out easily, takes all dust, dandruff and excess oil with it and leaves the hair clean, bright, wavy and rich in color.

To stop headache, or ache in back of joints, reduce swelling, allay inflammation, to relieve pain in any part of the body, apply Mother's Salve, rubbing in well. It is used for neuralgia, rheumatism, lumbago, etc. The world never saw its equal as a pain killer.

Superfluous hair on face or forearms can be quickly and easily removed at home by applying delicate paste. Make enough paste to cover the hairy surface by mixing powdered delicate and water; apply and wipe off after two minutes. Wash the skin and the hair will be gone. This recipe is safe, speedy and sure.
